When I saw Spaak October 10 I briefed him on why we wish NATO members to deny Soviet requests to overfly or make stops in NATO territory on flights to Cuba. I strongly urged that Belgium NATO representative be instructed to support our request and left with him talking paper we had also given Foreign Office.

Spaak expressed appreciation for briefing and said he just received message from De Staercke on this subject which he had not yet had time to study.

I left with Spaak confidentially piece of paper with essential facts (but no indication as to source of information), and he promised to look into this question as a matter of urgency but frankly did not know what GOB was in position legally to do.
